

SAX LLP

PROFILE SUMMARY

SAX

SAX LLP PROJECT PROFILE SUMMARY

Cabling is a critical part of any workplace, especially an office environment. Across this particular floor of office space, quality cabling is essential for successful BYOD conference rooms, one state-of-the-art Teams Native Boardroom with Biamp audio processor and Crestron video conferencing solution, as well as digital signage and room schedulers. Acoustics also play an important role in the functioning of this business which is why a high quality MPS sound masking system has been integrated. Security measures such as Hanwha cameras linked to Arculus VMS and a comprehensive OpenPath access control system are installed to offer the utmost safety and peace of mind.
